

Berlin, Germany - summer 2001

All photographs were made in summer 2001 as a spin-off project during a campaign for FRAUNHOFER at Berlin. My many thanks are going to my client. The photographic conditions were with respect for the special light atmosphere in Berlin perfect. All b/w negatives were exposed with LEICA M6 and ROLLEIFLEX TLR cameras on KODAK Film. D76/ID11 and MICRODOL X were used for developing. Light burings had to be applied since the sky was sometimes too bright.

The vintage-prints were produced on KODAK POLYMAX photographic paper. The portfolio or single prints are available on demand.
