

Fashion Portraits from 1990 - 2010

All photographs were made in the past 20 years. My thanks are going to all the uncomplaining, creative and brave fotomodels, especially to Daniella Hehmann, my favorite model and friend. Her mutability paired with her high professional attitude made every shooting exiting and very inspiring. She is also a great talent in beauty-photography.

All pictures have been made in a plain way of classical photography without any digital retouchings or similar modifications. They are characterized by the lifestyle of the late 90' but with the distance of time passed by one feels the personality of each model the stronger.

All b/w negatives were exposed with LINHOF, HASSELBLAD SLR and CANON cameras on KODAK and ILFORD film. D76/ID11 and MICRODOL X were used for developing. For Colour Negatives FUJI FILM REALA and SUPERIA were used and for Colour Slides the footage of KODAK EKTACHROME and FUJI PROVIA/VELVIA.

The vintage-prints in b/w were produced on KODAK POLYMAX and IFORD GALERIE FB photographic papers. The colour prints were handmade on FUJI CHRYSTAL ARCHIVE paper.

The portfolio or single prints are available on demand.
